

# DRIVE RESULTS WITH MAZAK INNOVATION

## See How at the Phoenix Grand Opening

You're invited to the Grand Opening of our new Phoenix Technical Center that will provide manufacturers in Arizona, New Mexico and surrounding areas with the industry's best service and support along with the latest machining innovations. At the event, you'll see live cutting demonstrations on a variety of machines featuring Multi-Tasking, Swiss-type production turning, 5-axis machining, and vertical and horizontal machining that'll elevate your shop's production. Plus, you'll have plenty of opportunities to speak with industry experts one-on-one to learn more about how you can do more and make more with Mazak.
